Knife Holder Dimension Drawing

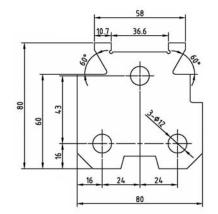

6410-SC – Shear Cut Knife

This knife is a lower cost option for a less demanding slitting environment. It is used in a wide range of applications, such as light paper, foil, metallic film and woven or non-woven fabrics at a cutting speed of up to 2,000 feet (400 meters) per minute.

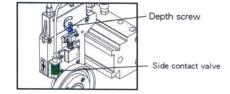

The <u>6410-SC</u> shear cut knife's innovative design incorporates automatic stroke and side contact between the top and bottom knife to a pre-set, adjustable depth.

The spring-loaded clamp pawl allows for ease in mounting and positioning the knife holder. This knife-holder can be ordered for either left or right cut.
